Flying Animals

14 Willow Street,
Kempton Park,
Johannesburg,
1620,
South Africa

Dear Justice,

As you know we have been using your company's services for a number of years now. As you know, because we not only do the large animals, but also the smaller less shipped species, communication with your staff is sometimes quite extensive.

We would just like to take this opportunity to thank you and staff not only for your patience but also the professional way you handle our shipments. As you know we are quite picky when it comes to animal shipments, and of the airlines we have used you and your team do an excellent job.

If you ever need a further reference, please feel free to contact us.

Yours Sincerely

Jimmy Magill
